VIRTUAL COMPONENT | 11 June - 1 July, 2024

The BIP program, in its virtual component, proposes Lectures that interpret the values proposed by Italo Calvino in SIX MEMOS translating them in terms of architecture, with special reference to only one work of architecture that is considered exemplar of each of Calvino's values asking the students to produce an exercise of re-interpretation of a work of architecture, in drawing and words.

IN-PERSON COMPONENT | 8-12 July, 2024
Department of Architecture, University of Naples "Federico II"
S.L. 2.7. classroom

In the phase of the physical component, the students work to find, inside THE INVISIBLE CITIES as an archive of forms, analogical artefacts that could be used to create site-specific intervention within the palimpsestic collage of Naples. Critical texts, visual and written diary and maps of "analogous Naples" should be the outcomes of the in-person activity.
